About this home

The Cambridge is a spacious home with great flow. It includes an oversized Garage which may be used as a 3-car tandem Garage or a workshop storage space. Off the 2-story foyer is a formal Dining Room, which flows into the spacious Family Room that features a gas fireplace flanked by media niches. Sliding doors lead to the rear patio, which may be changed to a covered porch. For easy grocery runs, the garage leads through the Mud Room straight to the Kitchen, which includes an island, walk-in pantry, and abundant cabinets. Enjoy breakfast in the Morning Room, which is wrapped in windows. Just off the Kitchen is a Hobby Room which can be a home office, yoga room, homework space, etc. Just 2 steps up the staircase on the landing lies the Powder Room, a unique twist. At the top of the stairs is an open Loft and entrance to the Owner's Suite, which includes a tray ceiling. The Owner's Bath has two separate vanities, large shower, and spacious walk-in closet. The second floor is rounded out with two nice-sized bedrooms, secondary bath, and laundry room.
